Humane Society of Manatee County

The Humane Society of Manatee County is committed to leading Manatee County in fostering compassion and respect for animals through care, education and collaboration. The philosophy of the Humane Society of Manatee County is that treatment of animals is a reflection of our community. 2021 marks the 50th Anniversary of the Humane Society of Manatee County serving the communities animals.

The Humane Society of Manatee County actively collaborates with other animal welfare organizations within the community. This collaborative effort extends to those in the community that may be financially challenged, making sure that all animals in Manatee County receive the medical care, vaccines and care they deserve. Our community outreach efforts and collaboration continue to expand as well.

The Humane Society of Manatee County Veterinary Clinic continues to expand the services offered to the animals of our community. Low cost spay/neuter is available to the public by appointment, as well as pet wellness exams for dogs and cats. Vaccines, microchipping and both dog and cat dentals services and dental x-ray are available to the public. Dermatology Services and Basic Orthopedic Surgery are being added to the available services at the Humane Society of Manatee County Veterinary Clinic in 2021.

Clients of the Veterinary Clinic can also buy their pet medications online at (www.humanemanatee.org) and at the veterinary clinic located at 2415 14th Street West in Bradenton. Flea and Tick Prevention as well as several options for heartworm prevention are available at discounted pricing.

Our shelter's Second Chance Adoption Program adopts out more than 60+ animals every month, saving lives four paws at a time. We believe that keeping

pets in loving homes is as important as finding new homes for homeless animals. The Pet Safety Net program includes a pet food pantry, behavioral issue training and trained adoption counselors who are here to help. In addition to making donations to support our shelter program there are many volunteer opportunities available. Volunteers play a key role in the organization's success.

For fifty (50) years the Humane Society of Manatee County has relied on individual donations, business donations, grants and bequests to carry out our mission. Please consider making a donation today to help support these efforts. We ask also that you consider the Humane Society of Manatee County in your planned giving / estate planning. Your gift will create a lasting memorial as well as make Manatee County a better place for the animals in our community in the future. Now is the time to speak to an attorney about the benefits of planned giving.

The Humane Society of Manatee County is proud to be a leader in animal welfare for our community and we truly appreciate your support. The unprecedented collaboration of animal welfare organizations that takes place in Manatee County every day is literally setting the standard for best practice initiatives across the state of Florida.
